EVERYTHING YOU NEED TO KNOW

## INLAID SYNTHETIC COIR LOGO MATS

- Our synthetic coir logo mat designs are inlaid for a very long lasting finish.
- We cut the design out in the appropriate colours and insert this into the back ground colour of the mat so the coloured fibres run throughout the design and last for the lifetime of the mat.
- Made from 10mm thick polypropylene with a recycled rubber and latex backing. Easily trimmed to size on site and ideal for fine detail designs.
